#### Change of Halloween because of politics is a shame

Several mayors of the Gulf Coast created such a stink.

They changed the date of Halloween before they stopped to think.

# Candidate For Sheriff **Hancock County**

As we approach the final days of the campaign, I wish to thank everyone for the warm and kind reception given me during my visit with you. I have tried diligently to visit with each of you. If I have missed anyone however, I would like to take this opportunity and ask for your vote on November 2nd.

My message is simple, I plan to bring positive change to law enforcement in Hancock County. My top priority is to significantly reduce the drug traffic which is stealing our children's future. In addition, I plan to develop a more highly trained and professional department whose primary purpose will be to serve and protect the people of Hancock County. I plan to significantly increase the amount of patrolling within the county and to prioritize victims rights which will include a personal and continuous follow by investigators during the investigation of a crime.

# Good crop expected for state's pecans

By Bonnie Coblentz **MSU Ag Communications** 

Despite drought and low expecting a good pecan crop this good crop next year.'

Dr. Freddie Rasberry, pecan specialist with the Mississippi State University Extension Service, estimated the state will have 3.5 million to 4 million pounds of pecans.

duced less than 1 million pounds last year.

"I was expecting a poor crop, but in fact we set a heavy crop. It just goes to show you can't fool Mother Nature," Rasberry said. "Somehow in the fall of the year the trees overcame the depressed condition of last year and set a heavy crop.'

Drought this year caused pecan trees to abort much of their crop in the middle of summer. Rasberry said this was not necessarily a bad thing.

"Since the trees aborted a lot of nuts, the quality of those that remained is better," Rasberry said.

The big question now is whether the trees were able to fill out the nuts that remained. Drought in early summer causes trees to produce smaller pecans; drought in later summer prevents the pecans from filling out.

"We set a good size crop, and I'm hoping the trees lost enough pecans so that what we

# Celebrating the communal spirit of Halloween

For kids, Halloween is a night of adventure, makebelieve and maybe a little mischief-making. For many parents, it's a pain in the neck and we're not talking about a vampire's bite.

There are the plastic costumes and masks that don't fit right, pitch-dark streets, late October chill, sugar-buzzed trick-or-treaters and older teens often looking for trouble.

It doesn't have to be that way, says Dr. Kathy Knight, an associate professor of family and consumer science at The University of Mississippi.

The holiday began as a communal celebration of the harvest season in pre-Christian Celtic society. And understanding Halloween's communal origins is a step toward celebrating it in a more meaningful

"I'm a traditionalist, and by that I mean I'd like to see Halloween move back to neighborhood celebrations," Knight says. "If we could do that, we could eliminate many problems of safety and nutrition while incorporating traditions that give Halloween meaning."

One idea is the neighborhood Halloween supper for family and friends, with old-fashioned games, music and food. Knight offers the following tips on hosting a traditional Halloween bash:

Use imagination. Encourage your kids to make their costumes so you won't be caught at the last minute scrambling for that last super hero uniform at the discount

"Be open and creative about costumes and remember that they don't have to be perfect," Knight says.

Carve funny faces on pumpkins a day or two in advance. Be creative with other directions: Use wheat sheaves. Indian corn, autumn leaves and miniature pumpkins to create a seasonal setting.

fet. Food can be part of the fun. Use your imagination to invent recipes for a haunted supper: devilish eggs, dirt (crumbled graham crackers mixed with gummy worms), swamp slime (green Jell-O), bloody popcorn (add red paste food coloring to the butter) and finger sandwiches (shaped like a witch's fingers).

Consider serving the more traditional pumpkin soup, bread and pie or toasted pumpkin seeds.

• Get into the games. Bobbing for apples is always fun, as are traditional games like "pass the orange." Ad lib and word games, fortune telling and storytelling involve the adults and older children.

"On Halloween, parents should get involved with older kids, too," Knight said. "Giving them responsibilities for games and storytelling in a party setting can help them develop social skills and keep them off the streets."

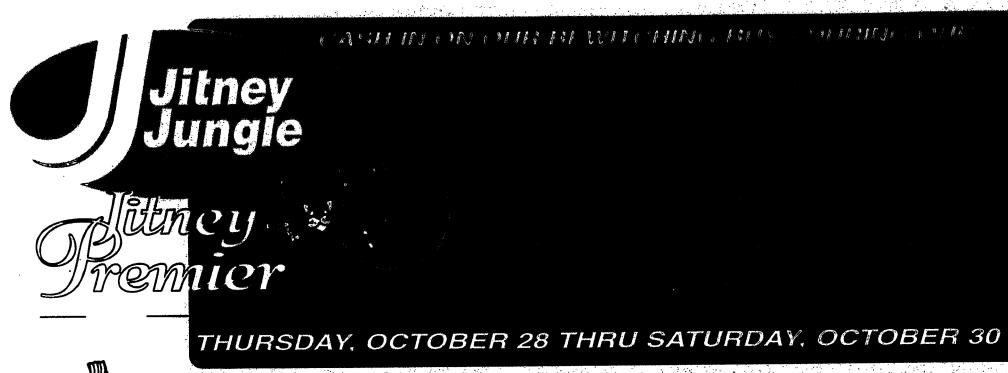

• Don't forget the tunes. "Yes, there's such a thing as Halloween music," Knight says.

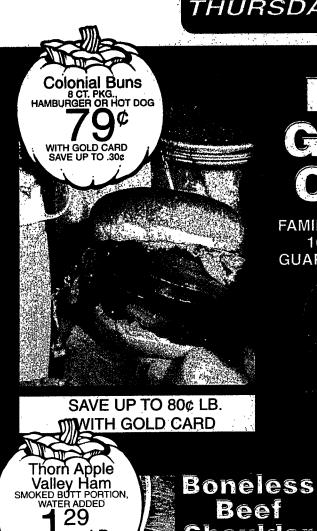

Make a tape with such classics as Bach's eerie Toccata and Fuge and the themes from Phantom of the Opera and The Twilight Zone.

Between songs, play a reading from an Edgar Allen Poe story or The Legend of Sleepy Hollow. Make creepy sound recordings of groans, screams, monstrous growls, minor piano chords and shaking aluminum foil (for thunder).

• Respect the neighbors. If your party gang plans to go trick-or-treating, do it early in the evening. Most folks blow out the candles in their pumpkins and turn off their lights at 8 p.m.

ARGUNIENT FOR THE INITIATIVE (Written by Randy Russell of Jackson)
This election day wit offer the citizens of Miscissippl an historic opportunity to change their state government for the better, initiative No. 9 proposes to limit state legislations in both chambers to two consecutive terms. This simply means that after two consecutive terms. This simply means that after two consecutive terms and legislator would be prohibited from holding that seat a third time, it would not keep them from occupying that same seat after sitting out one term, nor would it prevent their running for a seat in the other chamber (House of Representatives or Senate) immediately.

This government reform proposal would help equalize the governmental powers in this state between the legislative and executive branches. We already have

ARGUMENT AGAINST THE INSTANTIVE (Written by David Walde of Jackson)

The proposed constitutional amendment on term limits, initiative Measure No. 9, is about more than just limiting Mississippi Legislators to two terms. As a citizen and a voter, carefully consider that:

(1) It limits your ability to re-elect your senator or repre-

(2) it limits your ability to re-elect your senator or representative who has been doing the job he/she was elected to do, it should be noted that the average years of service for current legislators is eight years or less. Un-der the existing law you have the choice of extending their service. Under mandated term limits, you lose that

opportunity;
(3) it limits the ability of a citizen, who would be otherwise qualified, to run for an office of his/her choice; Continued on next page

This amendment is being promoted by the same group nus amendment is being promoted by the same group who, just four years ago, wanted you to limit the terms of virtually all elected and appointed officials. They tailed in 1995, and now this group, who is funded primarily by U.S. Term Limits, a Watshington D.C. based organization, is seeking to place term limits on members of the Mississippi Legislature. Who will they go atter next? Why is a national organization so interested in trying to influence the rights and freedoms of Mississippil voters?

Don't limit your rights and freedoms as a citizer. Again say no to Term Limits and to those who would have you restrict your rights. Vote NO on Initiative Measure No. 9. FISCAL ANALYSIS

(prepared by the chief legislative budget officer)
The Legislative Budget Office has determined that this
initiative proposal will have no significant impact

Fiscal Effect (supplied by the initiative sponsor)
This proposal does not require any revenue to implement. The proposal does not require a reduction in any source of revenue and it does not require a reallocation

ARGUMENT FOR THE INITIATIVE (Written by Randy Russell of Jackson)
This election day will offer the citizens of Mastissippi en historic opportunity to change their state government for the better. Initiative No. 9 proposes to limit state legislative in both chambers to hom. ior ine better, irrisaive rio, is proposes to lams state egi-lataiors in both chambers to two consecutive terms. This simply means that after two consecutive terms each legislator would be prohibited from holding that seat a third lime. It would not keep them from oc-cupying that same seat after sitting out one term, nor would it prevent their running for a seat in the other chamber (House of Representatives or Senate) imme-ritation.

this government reform proposal would help equalize the governmental powers in this state between the legislative and executive branches. We already have

ARGUMENT AGAINST THE INITIATIVE (Writen by David Waldo of Jackson)
The proposed consistional amendment on term limbs.

Hen by David Walde of Jackson)

(YYMEN by Discussion)
The proposed constitutional amendment on term limits, Initiative Measure No. 9, is about more than just limiting Mississippi Legislators to two terms. As a chizen and a voter, carefully consider that:

(1) it limits your freedom to vote for a person of your challenge.

(2) it limits your ability to re-elect your senator or representative who has been doing the job he/she was elect-ed to do. It should be noted that the overage years of service for current legislators is eight years or less. Un-der the existing law you have the choice of extending their service. Under mandated term limits, you lose that

opportunity; (3) it limits the ability of a citizen, who would be other-wise qualified, to run for an office of his/her choice; Continued on next page

Daylight savings is one thing. But on November 2nd, let's not go back to the old liberal way of solving our problems.

I'm Mike Parker. We need a Governor who will work for the children of Mississippi, and not for the MAE. We need discipline in the classroom. And graduating seniors who can actually read their diplomas.

keep Mississippi moving forward.

One of us. For all of us.
